

Help Center

Guidance for businesses using InstAlert to stay informed, connected, and prepared.

Getting started

Choose a paid subscription plan, complete your business profile, and invite the operational staff who should receive relevant alerts.

Set your business location and notification preferences so nearby security information reaches the right people.

Using InstAlert

Review nearby alerts, open the incident details, and use the panic workflow when an urgent situation requires a direct response.

Use the local risk view and historical alert record to identify recurring situations around your business.

Need assistance?

Contact LosIncreiblesCorp through the Let's Talk form on the InstAlert website. Include your business name, subscription plan, and a clear description of the request.
